1. Introduction

Forests are a key barrier to global climate change and crucial for maintaining biodiversity and ecological balance. At Joyson Electronics, we recognized the importance of forest protection and the urgent needs to address deforestation risks associated within our supply chains. By implementing this policy, we actively protect the environment, support local communities, and meet the expectations of our stakeholders.

2. Scope

This Policy applies to Joyson Electronics and its subsidiary groups/companies ' operation activities. Also, we encourage our business partners (such as joint ventures, suppliers, etc.) to comply with the policy.

3. Our Commitment

We strive to minimize the environmental impact of our activities, including our commitment to ensure that the supply chains for our products are free from any illegal deforestation and forests degradation. We committed to monitoring, managing and maximizing our effort to reduce deforestation risks in the whole value chain, and advocating protection, preservation and restoration actions.

4. Our Actions

To achieve the above commitments, we will:

Comply with global and local

Electronics. Management team will conduct regular reviews to ensure the effectiveness of this policy.
